

It's not the way you been looking
It's just the way that you see
It's not the people your meeting
It's just who you are to me

Baby your a star
I love to watch you glow
Baby your a star
I love to see you grow

It's not the clothes that your wearing
It's aint the style of your hair
It's not the car you been driving
That show that your going somewhere

Baby your a star
I love to watch you glow
Baby your a star
I love to see you grow

It's not the things you can bring me
It's about the things that we can become
It's not the things that you sing me
It's just the way that their sung

Baby your a star
I love to watch you glow
Baby your a star
I love to see you grow

Baby your a star
Baby your a star
Baby your a star
Baby your a star
Baby your a star
Baby your a star
